PROJECTS

HR ATHLETES – Site built using [HTML](#), [CSS](#) and [BOOTSTRAP](#), this is a simple single page website created for a youth sports organization that offers a method to register in the program by submitting a form that uses a third party form provider built on [PHP](#).

[VISIT SITE](#)

STOCKVIEW – Finance portal that lets the user keep track of their preferred stock. It also provides a way to read the latest finance related news and store favorite stocks on the “Favorites” page. Built with [HTML](#), [CSS](#), [BOOTSTRAP](#), [JAVASCRIPT](#), the site uses [WEB CRAWLERS](#) to gather publicly available data(news) from different sources.

[VISIT SITE](#)

HOSPEDAJES POR

DIA (accommodation per day) – This website is dedicated to hospitality services in Venezuela. This is a real business that I’m currently part of and I’m responsible for its online identity and presence. The site was built and is currently maintained on [WordPress](#). I have added a number of custom [CSS](#) rules to give it a more unique look.
